Re: Battery Builders Inc./Tonolli Incorporated Site,
Nesquehoning, Pennsylvania

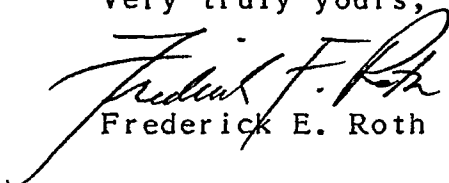

Dear Mr. Thomas:

This letter is being sent to you on behalf of my clients, Battery Builders, Inc., Naperville, Illinois, which recieved notice of a pending action by the U.S. EPA regarding the Tonolli Incorporated Site.

As per our conversation on Wednesday, July 27, 1988, my client is interested in resolving and settling their involvement with this matter as expeditiously as possible. Therefore, please forward any further correspondence and the findings and/or minutes of the meeting presently planned in October, 1988, during which it is our understanding that recommendations will be considered for parties whose liability is diminutive when compared to those who are burdened with the major portion of the estimated liability.

Thank you for your cooperation. My client and I look forward to hearing from you.

Very truly yours,

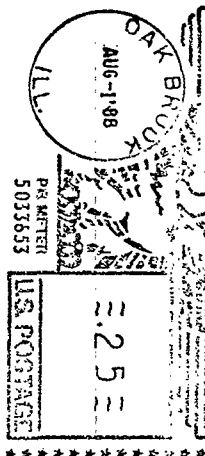

Frederick E. Roth
